Vendors listed in this handout maintain 15% or more drought tolerant plants in their plant inventory in accordance with the Prescott Active Management Area Low Water Use and Drought Tolerant Plant List and Prescott's drought tolerant plant list. The leaf symbol indicates local and Cottonwood area vendors with 50% or more plant inventory from these lists. Flagstaff and North Phoenix area vendors listed stock 25% or more qualifying plants.

Note: Independent stores generally offer the most variety. If you are a local business that sells qualifying plants, contact us to be added.
